reddot winner 2023

High Module Power

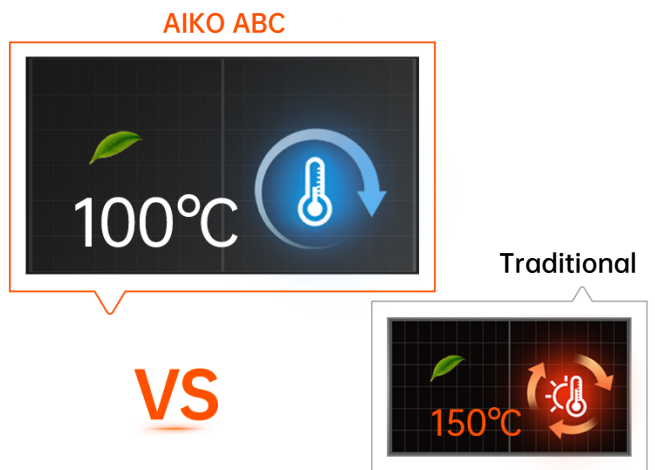

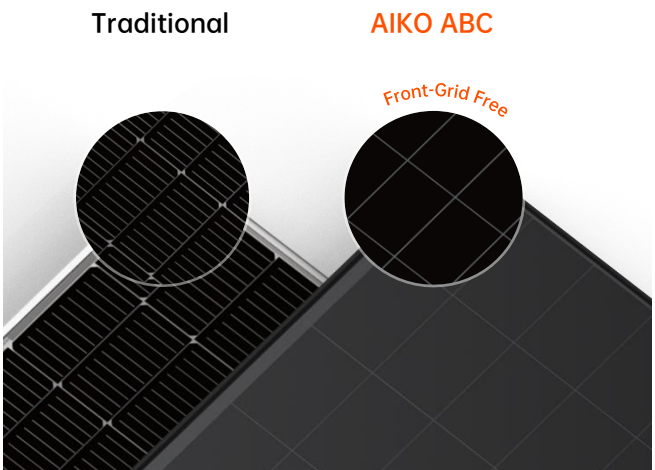

Unique Shading Optimization

Highest Module Power $\leq 2m^2$ area

Pure Black Aesthetics

High Rooftop Safety

Case Analysis: Earn More with AIKO Energy

Executive Summary

Annual Electricity
+14.4%

ABC Payback
5 months faster

Lifetime Net Profit
+19% / €8,044

1,263 kWh/year Electricity

4 months
family electricity usage

Save 484kg/year CO₂ emission*

3,933km
car driving emission

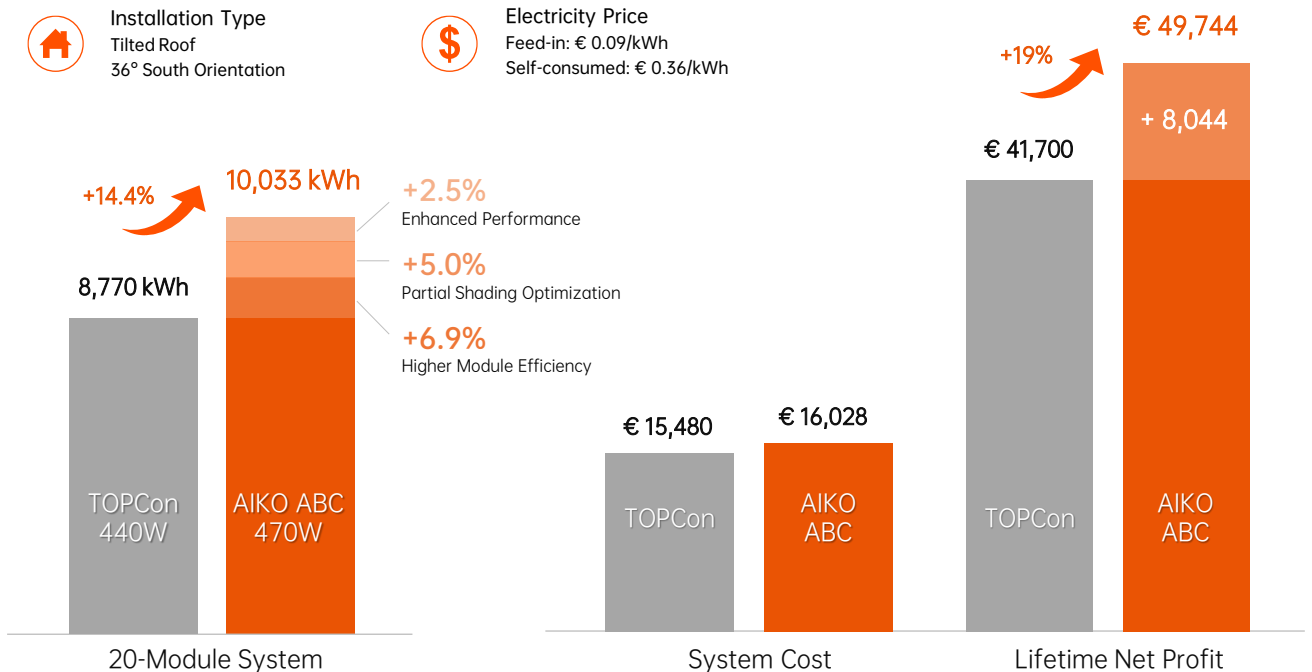

Location
Düsseldorf, Germany

4-people Household
Annual Power Usage 8,650 kWh

Installation Type
Tilted Roof
36° South Orientation

Electricity Price
Feed-in: € 0.09/kWh
Self-consumed: € 0.36/kWh

* CO2 emission intensity data from European Environment Agency.
